INDEX OF SUBJECTS

Adenoma, islet cell 623
Adrenal—cortical hyperplasia 225
Alcohol, polyvinyl 247
Allergic encephalomyelitis 135
Altitude, high 55
Amitosis—astrocyte 1
Amyloid—familial Mediterranean fever 567
——islet cell adenoma 623
Anaphylaxis—rat liver 521
Antibody—experimental nephritis 95; 183
Antibody formation—*P. tularensis* 259; 405
Anti-rat-kidney serum—nephritis 183
Anti-rat-lung serum—nephritis ... 95
Argentaffin cell—carotid body tumor 389
Arteriosclerosis—adrenal cortical hyperplasia 225
Ascites—experimental cirrhosis 535
Astrocyte—amitosis 1
Atrial infarction, experimental . 455
Atrioventricular node—blood supply 65
Autoimmune thyroiditis 425
Blood supply—bundle of His..... 65
Brush border—jejunal epithelium .. 747
Bundle of His—blood supply 65
Cachexia—skeletal muscle 23
Calcification, metastatic 645
Carcinoid tumor—serotonin 693
Carcinoma, yolk sac 549
Cardiac anomaly—left heart underdevelopment 287
Carotid body tumor—argentaffin cell 389
Cell mass, liver 349
Chicken embryo—influenza virus . 593
Child—cardiac hypertrophy 55
——right ventricular hypertrophy... 467
Chloride secretion, salivary..... 359
Cirrhosis—ascites 535
Cirrhosis, rat 645
Cholesterol feeding 661
Colchicine—in vaginal mucosa..... 477
Colitis, ulcerative 733
Connective tissue—cortisol 365
——salicylate 365
Copper deficiency—swine 603
Coronary blood supply 65
Cortex, adrenal—hyperplasia 225
Cortisol—connective tissue 365
Coxsackie parotitis 415
Coxsackie virus, Conn.-5, B-1 ..... 359; 415
Cyst—kidney, rat 645
Dog—coronary artery 65
——homotransplant, liver 501
Duck anti-rat-kidney serum..... 183
Duck anti-rat-lung serum..... 95
Dystrophy—mouse muscle 41
Ear chamber—inflammation 163
Egg, *Schistosoma mansoni* 711
Electron microscopy—amyloid .. 567
——Gaucher's disease 679
——hepatitis 205
——Hurler's disease 273
——jejunum 747
——Wilson's disease 315
Embryo, chick—influenza virus.... 593
Encephalomyelitis, allergic 135
Encephalopathy—chick embryo ... 593
Epithelium, jejunal 747
Experimental nephritis—mechanism 95; 183
Familial Mediterranean fever—amyloid 567
Fatty liver—cell mass..... 349
Fluorescein-labeled antibody—experimental nephritis 95; 183
Gaucher's disease 679
Glomerular stalk 373
Graft—liver 501
Granuloma—schistosomiasis 711
Guinea pig—allergic encephalomyelitis 135
——cholesterol feeding 661
Hamster—cholesterol feeding 661
Heart—atrial infarction 455
——atrioventricular node 65
——left-sided underdevelopment 287
——ventricular hypertrophy 55; 467
Heat—inflammation 163
Hemorrhagic encephalopathy—influenza 593
Hepatic vein occlusion..... 439
Hepatitis, murine 329
Hepatitis, viral 205
Hepatocellular change—Wilson's disease 315
High altitude—cardiac hypertrophy 55; 467
Histochemistry—Gaucher's disease 679
——Hurler's disease 273
——liver 521
——murine hepatitis 329
——Wilson's disease 315
Homotransplant—dog liver 501
Hurler's disease 273
Hyaluronidase—inflammation 163
Hyperplasia—adrenal cortex 225
——parathyroid 645
Hypertension, macromolecular . 247
Hypertrophy—right ventricle . 55; 467

Ileitis, regional 733
Immunocytochemistry— ulcerative colitis 733
Immunofluorescence—influenza virus 593
Immunohistochemistry—liver ... 521
Immunopathology—thyroiditis ... 425
Infarction, atrial 455
Infection—*P. tularensis* 259; 405
Inflammation—hyaluronidase 163
——papain 163
Influenza virus—encephalopathy .. 593
Islet cell adenoma—amyloid..... 623
Jejunal epithelium 747
Kidney—glomerular stalk 373
——mercury nephrotoxicity 297; 485
——multicystic—rat 645
——papillary necrosis 633
——tubular lesion 297
Labeled antibody—experimental nephritis 95; 183
Left heart—underdevelopment 287
Leukocytic sticking 163
Liver—cell mass 349
——homotransplant 501
——murine hepatitis 329
——rat—anaphylaxis 521
——rat—experimental cirrhosis 535
——vein occlusion 439
——viral hepatitis 205
——Wilson's disease 315
Lung—vascular lesion 77
Macaca irus—*P. tularensis* vaccination 259; 405
Macromolecular hypertension .. 247
Mass—liver cell 349
Mercury nephrotoxicity—intracellular site 485
——tubular lesion 297
Metabolism, copper 603
Monkey—*P. tularensis* vaccination 259; 405
Mouse—Coxsackie parotitis 415
——Coxsackie virus 359; 415
——hepatitis 205; 329
——muscle dystrophy 41
——obstructive uropathy 233
——parotitis, Coxsackie 415
——*Schistosoma mansoni* 711
——yolk sac carcinoma 549
Mucosa, vaginal—colchicine 477
——podophyllin 477
Multicystic kidney—rat 645
Muscle—cachexia 23
——regeneration 41
Necrosis, renal papillary 633
Nephritis, experimental—mechanism 95; 183
——nephrotoxicity, mercury ... 297; 485
N-2-fluorenyldiacetamide 645
Neuroglia—amitosis 1
Neuron—Tay-Sachs disease 579
Obstructive uropathy 233
Occlusion, hepatic vein 439
Orthotopic graft—liver 501
Osteitis fibrosa—rat 645
Pancreas—adenoma 623
Papain—inflammation 163
Papillary necrosis, renal 633
Parathyroid hyperplasia, experimental 645
Parietal yolk sac carcinoma..... 549
Parotitis, Coxsackie 415
Pasteurella tularensis—aerogenic vaccination 405
——intracutaneous vaccination 259
Pig—coronary artery 65
——(see Swine) 603
Podophyllin—in vaginal mucosa ... 477
Polyvinyl alcohol 247
Protoplasmic astrocyte—amitosis. 1
Pulmonary vascular lesion 77
Rabbit—allergic encephalomyelitis .. 135
——cholesterol feeding 661
——ear chamber 163
——inflammation 163
Radioautography—muscle regeneration 41
Rat—anaphylaxis 521
——cholesterol feeding 661
——cirrhosis, experimental 535; 645
——colchicine 477
——liver 521
——mucosa, vaginal 477
——nephritis, experimental 95
——nephrotoxicity, mercury ... 297; 485
——parathyroid hyperplasia 645
——podophyllin 477
Reactive astrocyte—amitosis 1
Regeneration—muscle 41
Regional ileitis 733
Reichert's membrane—mouse 549
Renal papillary necrosis—artery . 633
Right ventricle—hypertrophy . 55; 467
Salicylate—connective tissue 365
Salivary chloride secretion—Coxsackie virus infection 359
***Schistosoma mansoni* egg** 711
Secretion—chloride, salivary 359
Serotonin—carcinoid tumor 693
Serum—duck anti-rat-kidney 183
——duck anti-rat-lung 95
Skeletal muscle—cachexia 23
Stalk, glomerular 373
STR/1N mouse—urinary obstruction 233
Swine—copper deficiency 603
Tay-Sachs disease—enzyme alteration 579
Thromboplastin—vascular lesion .. 77

Thyroid—effect of cholesterol feeding 661
Thyroiditis, chronic nonspecific ... 425
Tissue, connective—cortisol 365
——salicylate 365
Tubular lesion—nephrotoxicity ... 297
Tularensis—vaccination 259; 405
Tumor, carcinoid—serotonin 693
Tumor, carotid body 389
Ulcerative colitis 733
Underdevelopment—left heart ... 287
Urinary obstruction 233
Vaccination—*P. tularensis* ... 259; 405
Vaginal mucosa—colchicine 477
——podophyllin 477
Vascular lesion—left heart underdevelopment 287
——lung 77
Vascular structure—effect of cholesterol feeding 661
Vein occlusion, hepatic 439
Ventricle, right—high altitude 55; 467
Ventricular hypertrophy, right 55; 467
Viral hepatitis 205
Virus, Coxsackie 359; 415
Virus, influenza—hemorrhagic encephalopathy 593
Virus, murine hepatitis 329
Wilson's disease—liver 315
Yolk sac carcinoma 549

INDEX OF AUTHORS

Adams, R. D. See Waksman and Adams (August) 135

Allison, F., Jr.; Lancaster, M. G., and Baxter, M. D., Jr. Studies on the pathogenesis of acute inflammation. IV. The failure of papain and hyaluronidase to modify leukocytic sticking within rabbit ear chambers injured by heat. (August) 163

Arias-Stella, J. See Recavarren and Arias-Stella (October) 467

——, and Recavarren, S. Right ventricular hypertrophy in native children living at high altitude. (July) 55

Barile, M. F. See Sokoloff and Barile (August) 233

Barka, T. See Schaffner, Sternlieb, Barka and Popper (September) 315

Barroso-Moguel, R., and Costero, I. Argentaffin cells of the carotid body tumor. (October) 389

Baxter, M. D., Jr. See Allison, Lancaster and Baxter (August) 163

Benditt, E. P. See Lagunoff, Ross and Benditt (September) 273

Bernick, S.; Patek, P. R.; Ershoff, B. H., and Wells, A. Effect of cholesterol feeding on the thyroid gland and vascular structures of the rabbit, guinea pig, hamster and rat. (December) 661

Brzosko, W. J. See Mellors, Brzosko and Sonkin (October) 425

Calkins, E. See Cohen, Frensdorff, Lamprecht and Calkins (November) 567

Carnes, W. H. See Shields, Coulson, Kimball, Carnes, Cartwright and Wintrobe (November) 603

Cartwright, G. E. See Shields, Coulson, Kimball, Carnes, Cartwright and Wintrobe (November) 603

Chapeau, M. L. See Seegal, Hsu, Rothenberg and Chapeau (August) 183

Chappel, C. I. See Rona, Chappel and Kahn (October) 455

Cheatham, W. J. See Wilson and Cheatham (September) 359

——. See Wilson and Cheatham (October) 415

Cohen, A. S.; Frensdorff, A.; Lamprecht, S., and Calkins, E. A study of the fine structure of the amyloid associated with familial Mediterranean fever. (November) 567

Cohen, R. See Jones and Cohen (September) 329

Costero, I. See Barroso-Moguel and Costero (October) 389

Coulson, W. F. See Shields, Coulson, Kimball, Carnes, Cartwright and Wintrobe (November) 603

Crowson, C. N. See Rodin and Crowson (September) 297

——. See Rodin and Crowson (October) 485

Dammin, G. J. See McBride, Wheeler, Smith, Moore and Dammin (November) . . 501

Davis, R. B. Observations on the occurrence and significance of serotonin in carcinoid tumors. (December) 693

Denny-Brown, D. See Marin and Denny-Brown (July) 23

Eigelsbach, H. T. See McGavran, White, Eigelsbach and Kerpsach (September) . . 259

——. See White, McGavran, Prickett, Tulis and Eigelsbach (October) 405

Ershoff, B. H. See Bernick, Patek, Ershoff and Wells (December) 661

Feldman, J. D. See Pierce, Midgley, Sri Ram and Feldman (November) 549

Fennell, R. H., Jr., and Santamaria, A. Anaphylaxis in the rat. Immunohistochemical and histochemical studies of the liver. (November) 521

Fisher, E. R., and Reidbord, H. Gaucher's disease: pathogenetic considerations based on electron microscopic and histochemical observations. (December) . . 679

Foraker, A. G., and Hernandez, J. A. Relative cell mass of normal versus fatty liver. (September) 349

Frensdorff, A. See Cohen, Frensdorff, Lamprecht and Calkins (November) . . . 567

Garlock, J. See Koffler, Minkowitz, Rothman and Garlock (December) 733

Gibson, J. B., and Smith, J. C. The origin of ascites in experimental cirrhosis in the rat. (November) 535

Gore, I.; Tanaka, K.; Nakashima, T., and Larkey, B. J. Pulmonary vascular lesions following the repeated intravascular administration of thromboplastin. (July) 77

Gottlieb, L. S.; Robertson, R., and Zamcheck, N. An electron microscope study of the brush border of the jejunal columnar and crypt epithelium. (December) . 747
Greenspan, R. H. See Widmann, Hales and Greenspan (October) 439
Hales, M. R. See Widmann, Hales and Greenspan (October) 439
Hall, C. E., and Hall, O. Macromolecular hypertension and associated pathologic changes resulting from treatment with polyvinyl alcohol. (August) 247
Hall, O. See Hall and Hall (August) 247
Hernandez, J. A. See Foraker and Hernandez (September) 349
Higginson, J. See Svoboda, Nielson, Werder and Higginson (August) 205
Hook, E. W.; Luttrell, C. N.; Slaten, K., and Wagner, R. R. Hemorrhagic encephalopathy in chicken embryos infected with influenza virus. IV. Endothelial localization of viral antigens determined by immunofluorescence. (November) . . 593
Houck, J. C. The effect of cortisol and salicylate upon the connective tissue. (September) 365
Hsu, K. C. See Seegal, Hsu, Rothenberg and Chapeau (August) 183
——. See Triedman, Metzger, Hsu, Rothenberg, Seegal and Urquhart (July) . . . 95
Jones, D. B.; Mueller, C. B., and Menefee, M. The cellular and extracellular morphology of the glomerular stalk. (October) 373
Jones, W. A., and Cohen, R. B. The effect of a murine hepatitis virus on the liver. An anatomic and histochemical study. (September) 329
Kahn, D. S. See Rona, Chappel and Kahn (October) 455
Kerpsack, R. W. See McGavran, White, Eigelsbach and Kerpsack (September) . . 259
Kimball, D. A. See Shields, Coulson, Kimball, Carnes, Cartwright and Wintrobe (November) 603
Kline, T. S. Podophyllin and colchicine changes in the vaginal mucosa of the virginal, pregnant, and ovariectomized rat. A comparative study. (October) 477
Koffler, D.; Minkowitz, S.; Rothman, W., and Garlock, J. Immunocytochemical studies in ulcerative colitis and regional ileitis. (December) 733
Lagergren, C., and Ljungqvist, A. The intrarenal arterial pattern in renal papillary necrosis. A micro-angiographic and histologic study. (December) . . . 633
Lagunoff, D.; Ross, R., and Benditt, E. P. Histochemical and electron microscopic study in a case of Hurler's disease. (September) 273
Lamprecht, S. See Cohen, Frensdorff, Lamprecht and Calkins (November) . . . 567
Lancaster, M. G. See Allison, Lancaster and Baxter (August) 163
Lapham, L. W. Cytologic and cytochemical studies of neuroglia. I. A study of the problem of amitosis in reactive protoplasmic astrocytes. (July) 1
Larkey, B. J. See Gore, Tanaka, Nakashima and Larkey (July) 77
Lazarus, S. S.; Wallace, B. J., and Volk, B. W. Neuronal enzyme alterations in Tay-Sachs disease. (November) 579
Lichtenberg, F. v. Host response to eggs of *S. mansoni*. I. Granuloma formation in the unsensitized laboratory mouse. (December) 711
Ljungqvist, A. See Lagergren and Ljungqvist (December) 633
Lumb, G., and Singletary, H. P. Blood supply to the atrioventricular node and bundle of His: a comparative study in pig, dog, and man. (July) 65
Luttrell, C. N. See Hook, Luttrell, Slaten and Wagner (November) 593
Marin, O. S. M., and Denny-Brown, D. Changes in skeletal muscle associated with cachexia. (July) 23
McBride, R. A.; Wheeler, H. B.; Smith, L. L.; Moore, F. D., and Dammin, G. J. Homotransplantation of the canine liver as an orthotopic vascularized graft. Histologic and functional correlations during residence in the new host. (November) 501
McGavran, M. H. See White, McGavran, Prickett, Tulis and Eigelsbach (October) . 405
——; **White, J. D.; Eigelsbach, H. T., and Kerpsack, R. W.** Morphologic and immunohistochemical studies of the pathogenesis of infection and antibody formation subsequent to vaccination of *Macaca irus* with an attenuated strain of *Pasteurella tularensis*. I. Intracutaneous vaccination. (September) 259
Mellors, R. C.; Brzosko, W. J., and Sonkin, L. S. Immunopathology of chronic nonspecific thyroiditis (autoimmune thyroiditis). (October) 425
Menefee, M. See Jones, Mueller and Menefee (October) 373
Metzger, H. See Triedman, Metzger, Hsu, Rothenberg, Seegal and Urquhart (July) . 95

Midgley, A. R., Jr. See Pierce, Midgley, Sri Ram and Feldman (November) . . . 549
Minkowitz, S. See Koffler, Minkowitz, Rothman and Garlock (December) . . . 733
Moore, F. D. See McBride, Wheeler, Smith, Moore and Dammin (November) . . . 501
Mueller, C. B. See Jones, Mueller and Menefee (October) 373
Naeye, R. L. Perinatal vascular changes associated with underdevelopment of the left heart. (September) 287
Nakashima, T. See Gore, Tanaka, Nakashima and Larkey (July) 77
Nielson, A. See Svoboda, Nielson, Werder and Higginson (August) 205
Patek, P. R. See Bernick, Patek, Ershoff and Wells (December) 661
Pierce, G. B., Jr.; Midgley, A. R., Jr.; Sri Ram, J., and Feldman, J. D. Parietal yolk sac carcinoma: clue to the histogenesis of Reichert's membrane of the mouse embryo. (November) 549
Plair, C. M. See Wilens and Plair (August) 225
Popper, H. See Schaffner, Sternlieb, Barka and Popper (September) 315
Porta, E. A.; Yerry, R., and Scott, R. F. Amyloidosis of functioning islet cell adenomas of the pancreas. (November) 623
Prickett, P. A. See White, McGavran, Prickett, Tulis and Eigelsbach (October) . . 405
Proceedings of the American Association of Pathologists and Bacteriologists. (July) 119
Recavarren, S. See Arias-Stella and Recavarren (July) 55
——, **and Arias-Stella, J.** Topography of right ventricular hypertrophy in children native to high altitude. (October) 467
Reidbord, H. See Fisher and Reidbord (December) 679
Reuber, M. D. Parathyroid hyperplasia, multicystic kidneys, osteitis fibrosa generalisata and metastatic calcification in cirrhotic rats fed N-2-fluorenyldiacetamide. (December) 645
Robertson, R. See Gottlieb, Robertson and Zamcheck (December) 747
Rodin, A. E., and Crowson, C. N. Mercury nephrotoxicity in the rat. I. Factors influencing the localization of the tubular lesions. (September) 297
——, **and** ——. Mercury nephrotoxicity in the rat. 2. Investigation of the intracellular site of mercury nephrotoxicity by correlated serial time histologic and histoenzymatic studies. (October) 485
Rona, G.; Chappel, C. I., and Kahn, D. S. The pathogenesis of atrial infarction; experimental data. (October) 455
Ross, R. See Lagunoff, Ross and Benditt (September) 273
Rothenberg, M. S. See Seegal, Hsu, Rothenberg and Chapeau (August) 183
——. See Triedman, Metzger, Hsu, Rothenberg, Seegal and Urquhart (July) . . . 95
Rothman, W. See Koffler, Minkowitz, Rothman and Garlock (December) 733
Santamaria, A. See Fennell and Santamaria (November) 521
Schaffner, F.; Sternlieb, I.; Barka, T., and Popper, H. Hepatocellular changes in Wilson's disease. Histochemical and electron microscopic studies. (September) . 315
Scott, R. F. See Porta, Yerry and Scott (November) 623
Seegal, B. C. See Triedman, Metzger, Hsu, Rothenberg, Seegal and Urquhart (July) 95
——; **Hsu, K. C.; Rothenberg, M. S., and Chapeau, M. L.** Studies of the mechanism of experimental nephritis with fluorescein-labeled antibody. II. Localization and persistence of injected rabbit or duck anti-rat-kidney serum during the course of nephritis in rats. (August) 183
Shields, G. S.; Coulson, W. F., Kimball, D. A.; Carnes, W. H.; Cartwright, G. E., and Wintrobe, M. M. Studies on copper metabolism. XXXII. Cardiovascular lesions in copper-deficient swine. (November) 603
Singletary, H. P. See Lumb and Singletary (July) 65
Slaten, K. See Hook, Luttrell, Slaten and Wagner (November) 593
Smith, J. C. See Gibson and Smith (November) 535
Smith, L. L. See McBride, Wheeler, Smith, Moore and Dammin (November) . . . 501
Sokoloff, L., and Barile, M. F. Obstructive genitourinary disease in male STR/1N mice. (August) 233
Sonkin, L. S. See Mellors, Brzosko and Sonkin (October) 425
Sri Ram, J. See Pierce, Midgley, Sri Ram and Feldman (November) 549
Sternlieb, I. See Schaffner, Sternlieb, Barka and Popper (September) 315

Svoboda, D.; Nielson, A.; Werder, A., and Higginson, J. An electron microscopic study of viral hepatitis in mice. (August) 205
Tanaka, K. See Gore, Tanaka, Nakashima and Larkey (July) 77
Triedman, R. S.; Metzger, H.; Hsu, K. C.; Rothenberg, M.; Seegal, B. C., and Urquhart, A. Studies of the mechanism of experimental nephritis with fluorescein-labeled antibody. I. Localization and persistence of injected duck anti-rat-lung serum during the course of nephritis in rats. (July) 95
Tulis, J. J. See White, McGavran, Prickett, Tulis and Eigelsbach (October) 405
Urquhart, A. See Triedman, Metzger, Hsu, Rothenberg, Seegal and Urquhart (July) 95
Volk, B. W. See Lazarus, Wallace and Volk (November) 579
Wagner, R. R. See Hook, Luttrell, Slaten and Wagner (November) 593
Waksman, B. H., and Adams, R. D. A histologic study of the early lesion in experimental allergic encephalomyelitis in the guinea pig and rabbit. (August) . . 135
Walker, B. E. A radioautographic study of muscle regeneration in dystrophic mice. (July) 41
Wallace, B. J. See Lazarus, Wallace and Volk (November) 579
Wells, A. See Bernick, Patek, Ershoff and Wells (December) 661
Werder, A. See Svoboda, Nielson, Werder and Higginson (August) 205
Wheeler, H. B. See McBride, Wheeler, Smith, Moore and Dammin (November) . . 501
White, J. D. See McGavran, White, Eigelsbach and Kerpsack (September) . . . 259
——; McGavran, M. H.; Prickett, P. A.; Tulis, J. J., and Eigelsbach, H. T. Morphologic and immunohistochemical studies of the pathogenesis of infection and antibody formation subsequent to vaccination of *Macaca irus* with an attenuated strain of *Pasteurella tularensis*. II. Aerogenic vaccination. (October) . . 405
